## INTRODUCTION

I am a frontend engineer with expertise in React, TypeScript, Redux, and WebSockets, focusing on building scalable and high-performance web applications. Passionate about modern frontend development, I create real-time, interactive platforms with technologies like Turborepo, TailwindCSS, and Vite to deliver seamless user experiences.

## PROFESSIONAL EXPERIENCE

### Frontend Developer

[Live](#)

#### TARS INDUSTRIES

Jan 11, 2025 - Present

- Developing a full-featured social media platform with messaging and e-commerce features.
- Engineered real-time messaging using WebSockets for instant communication.
- Implemented content creations, interactions, connections, infinite scroll, profile content category.
- Built the entire monorepo structure using Turborepo, Vite, pnpm for efficient development and scalability.

**Stack:** React, Redux, React Router, TypeScript, WebSocket, TailwindCSS, Turborepo, Vite, pnpm.

### Frontend Developer Intern

#### TARS INDUSTRIES

Oct 10, 2024 - Jan 09, 2025

- Developing a full-featured social media platform with messaging and e-commerce features.
- Implemented content creations, interactions, connections, infinite scroll, profile content category.
- Utilized React, Redux, TypeScript, ReactRouter, TailwindCSS, to deliver a seamless user experience.

**Stack:** React, Redux, React Router, TypeScript, WebSocket, TailwindCSS

## TECHNICAL SKILLS

**Languages:** TypeScript, JavaScript (ES6+)

**Frontend Technologies:** React, Redux, React Router, Context API, TailwindCSS, Bootstrap

**Real-Time Communication:** WebSocket, Socket.io

**Build Tools & PM:** Vite, Turborepo, pnpm, npm

**Version Control:** Git, Github

**Software Architecture:** Monorepo, Microfrontend, MVP

**Testing & Debugging:** Vitest, Dev tools

**Familiar:** Next.js, MySQL, Express.js

## PROJECTS

### FashionFizz

[Live](#) | [Client](#)

(E-commerce Clothing Website)

- Developed a full-featured e-commerce platform for browsing, selecting, and purchasing clothing.
- Implemented user authentication, secure checkout, order tracking, and responsive design.
- Utilized React, ReactRouter, TailwindCSS, and Context API to deliver a seamless user experience.

**Technology:** React, React Router, TailwindCSS, Context API, JavaScript etc.

### Hire Wizard

[Server](#) & [Client](#)

(Job Search Application)

- Built with a modern tech stack (Express.js, Node.js, MySQL, React.js, Tailwind CSS) for scalability and performance.
- Implemented user-friendly search filters and a robust database to match job seekers with relevant opportunities.

**Technology:** Express.js, Node.js, MySQL, React, TailwindCSS, React Router, Context API etc.

### Chat App

[Live](#) | [Client](#) | [Server](#)

(Real Time Messaging App)

- Utilized Vite-React, TailwindCSS, and React Router for a performant and visually appealing frontend.
- Developed a real-time messaging app using the MERN stack with Socket.io for instant chat.
- Implemented user authentication and routing for a seamless and secure user experience.

**Technology:** Express.js, Node.js, React, MongoDB, Socket.io React Router, TailwindCSS, Daisy UI, etc.

## PROBLEM SOLVING

- Recognized for solving 60+ problems at [Leetcode](#).
- Received Academic 50% Merit based scholarship.

## EDUCATION

BSc in CSE, BRAC University, Sep24,2022 - Present  
Current CGPA: 3.90
